Mission Statement

The mission of the Foundation for Health Research is research and education regarding health freedom and health with an emphasis on holistic healthcare and nutrition. Equally important is the Foundation for Health Research’s preservation of health-freedom history and original copies of rare health books, including the Foundation’s maintenance of the NHF Memorial Library, the only health-freedom library of its kind in the World.

Use the link below for your donation and put in the comments section this donation is for VETS to attend the 16th International Natural Health and Foods Expo, Sept 23-24, 2023
